Constructing a frequency distribution and a histogram

QUESTION

Here are the shopping times (in minutes) for each of sixteen shoppers at a local grocery store.

(a) Complete the grouped frequency distribution for the data. (Note that the class width is 4.)

Shopping times (in minutes)	Frequency
15.5-19.5	1
19.5-23.5	4
23.5-27.5	3
27.5-31.5	3
31.5-35.5	5

(b) Construct a histogram for the data.
