Interpreting a double bar graph

QUESTION

There are three libraries in Newbury Heights. Each library has fiction and non-fiction books available. The double bar graph below shows how many of each are at each library. Use this graph to answer the questions.

$$\begin{array}{r} 1500 \\ + 1650 \\ \hline 3150 \end{array}$$

- (a) Estimate the number of non-fiction books at Coast.
- (b) Which libraries have more fiction books than non-fiction books?
- (c) Estimate the total number of books at Hillside. 3150
